

Brad Nicholls' Thoughts Presidential Debate June 27th 2024 Biden Trump

Nice golden dome Georgia.

Sweet set, fuck CNN

Music too loud, fucksake.

Biden already looks lost just walking to podium.

Biden has already lost this debate on look alone, on voice, on vibes, on everything... oh no...

I feel like Biden wants to touch Trump in a sexual way . Sly . Guy.

Trump is doing fine. Biden looks severely afraid of every atom in the room. A horror show.

America has a thousand trillionaires hahahaha

Biden forgot what he was saying halfway through his point, really bad this.

Abortion should be Trump's weakness. He just answered beautifully. Mental stuff.

Everybody wanted it brought back apparently. Ha.

Biden kills babies apparently. Well, actually, yeah.

This setup without the audience and muting the mics is so much better. So much fucking better.

BIDEN'S FACE!!!!!

B R A N D O N

Americans live in a rats nest 'pparently

Camera cutting from Biden more often due to his very strange (HORROR) facial expressions!

Yeah Trump mostly likely called dead veterans suckas and loooosers.

A black shadow ghost ghoul just attacked BIDEN'S camera. The fuck.

70% Trump is gonna win this thing. The election.

The Commission on Presidential Debates is dead forever. Best general election presidential debate in a long long long time.

Biden is a very bad Palestinian apparently.

Apparently.

Jan 6, let's see. . .

Biden has to hit hard here. Come the fuck on!

Biden just don't have it in him anymore. He's handing America back to a fascist. A wannabe dictator, and soon maybe a real one.

“Morals of an alley cat.”

Great line. *Poorly delivered.*

Halftime show is needed.

There has been no real massive glaring fuck ups by Biden yet, it's just the overall vibe and the contrast between a clearly physical and mentally sick old man and an old man whose body still works, whose head still works even if that head is full of a lotta shit.

Seriously. BIDEN'S FACE. I have laughed out loud four or five times at it.

Policy doesn't matter at all in politics. Does it. Alright. It matters a little. But only a little.

What's a BLACK JOB ?

Dana Bash has very moist lips, light pink.

Ooooo Tim Scott mention Ooooo VP Ooooo

“We had H2O” lol

What's that lump on Joe's head?

Dana Bash just laughed at Biden. Bitch.

Drink a lot of diet coke, eat a lot of fried chicken.

Trump is insidious. He is a very effective politician and communicator. And a very sick narcissist. Insidious. A disaster is coming.

This debate shoulda been an hour. Starting to nosedive in the chuckles and it's all getting soupy, warm milk sleepy.

Jake Tapper is extremely anaemic, weak and piss-whistle thin.

Piss-whistle thin, I'm such a great writer.

Biden getting some uuumph. Yeah. uuumph. Some! Got sum Energy! Only took an hour 20. Wooow.

Some real passion from these useless fucks when they talk about golf.

WORLD WAR III

Biden - “You're a whiner.” GREAT LINE, well delivered. A rare hit.

Interesting to see what this does to the polls especially in the swing states. Likely bump for Trump. Anywhere from 1-2 to 5-6 points all over.

Will they replace Biden before the convention? This will be the conversation.

Trump hurt by “whiner” tryna hit Biden with “complainer” fell flat.

And that's it.

Trump is on course to win this election. And he deserves it. Some elements of his foreign policy are positives and align with mine but his domestic policy and mental disorders are a risk to America and the world. Joe Biden, the Democratic Party establishment and liberal hubris bullshit are to blame. Things must change after this, but likely won't.
